

HOSPITALITY INTELLIGENCE
TRANSFORMATION & OPERATIONS

360 restaurant consulting in Kuala Lumpur, by chefs.

Prepared by Iker and Anais for Basilio

THE NAME

A milestone marks the way

On the Way of Santiago, the *hitos* are the stone markers that tell you you're on the right path and how far you have left. Iker is from Santiago, the city where all its routes end.

In Spanish, a *hito* is also a milestone you reach: opening, filling the room, closing the month in profit. That is what HITO wants to bring to every restaurant, step by step.

In Kuala Lumpur, the H reads
differently: two towers joined by a
skybridge, like the Petronas.

Spain and Malaysia in a single symbol.

H HOSPITALITY

I INTELLIGENCE

T TRANSFORMATION

O OPERATIONS

Proposed tagline: *Set in stone.* What you build with HITO is made to last.

A milestone on the Way of Santiago, with the scallop shell carved on it.

WHY HITO

Where it hurts most in Malaysia

“Not knowing how to calculate costs and not finding staff: the two main reasons new businesses don't last.”

Bukit Bintang hawkers' association, in China Press (June 2025).

29

mentions of costs and inflation

20

of foreign workers and their paperwork

I 8

of staff shortages and turnover

Search across Malaysian press and forums, 2024–2026. Indicative figures.

WHAT HITO DOES

360 consulting for restaurants

From concept to everyday operations: opening, training the team, controlling costs and putting order in the operation. Real chefs, with years in kitchens in Spain and Malaysia.

PROMISE

“We find where your restaurant's profit is going.”

STAFF TRAINING

We train your team

In the kitchen and on the floor, with our method and in your staff's own languages. So the restaurant doesn't depend on who leaves.

COST TRAINING

We teach you to control your costs

With the CosteOS method: recipe costing with real waste, menu engineering and your numbers every day. For the owner and the team.

PATH 1

Open from scratch

For owners who want a restaurant with the concept already done: concept, costed menu, trained team and systems running from day one.

PATH 2

Improve the one you run

For restaurants already open: we find where the money is going and fix it across costs, menu, staff and processes.

SERVICES

Everything we do

Concept and opening

The restaurant thought through, with numbers, before you invest.

- A catalogue of ready-to-launch concepts: idea, menu, brand and numbers.
- European concepts that don't exist in Malaysia yet.
- Study of the area: competitors, prices and reviews.
- The concept's numbers: investment, food cost and break-even.
- Standardised menu and recipe book, fully costed.
- Restaurant branding, naming, tableware and glassware.

Team

We find your people and train them with our method.

- Chef recruitment through Basilio's network in Kuala Lumpur.
- Opening chef: we run the kitchen for the first weeks.
- Kitchen and floor training with the HITO method.
- Video academy: procedures recorded and translated into your staff's languages.
- WhatsApp assistant for the staff: "how do I make sauce X?".
- Short WhatsApp quizzes to check what they've learned.

Costs and menu

Know what you make on every dish, every day.

- Cost training for the owner and the team.
- Cost audit of a running restaurant.
- Recipe costing with real waste and food cost.
- Menu engineering: a new menu, or the current one reworked to be more profitable.
- Automatic stock control and supplier orders.
- Daily WhatsApp report with sales, cost and profit: your restaurant in 5 minutes a day.

SO IT DOESN'T DEPEND ON WHO LEAVES

Operations and control

Clear processes so the restaurant runs even when the team changes.

- External executive chef: kitchen leadership without a full-time hire.
- Operations manual: kitchen, floor, cleaning, opening and closing procedures.
- Attendance control: if someone misses their 9-hour shift, the alert and warning letter go out automatically.
- Shift and staffing alerts.
- Unified reports, purchasing and finance for owners with several outlets.

SERVE AND RETAIN

Guests and loyalty

Answer, book and bring guests back.

- Bookings, questions and orders on WhatsApp, answered at once.
- The phone answered and bookings taken, even after hours.
- Reminders to cut no-shows.
- Automatic replies to Google reviews, and review requests after each visit.
- Service in English, Malay and Mandarin.
- WhatsApp loyalty for customers who have already visited.
- Dynamic menus and recommendations.

LESS PAPERWORK

Office and HR

We put order in the work nobody sees.

- HR: staff documents, schedules and communication.
- Letters to staff generated automatically, warning letters included.
- Everyday paperwork and admin, automated.

AFTER OPENING

Ongoing support

We don't disappear on opening day.

- Monthly follow-up plan: numbers, menu and ongoing training.
- On-site check visits, with Basilio in Kuala Lumpur.
- Maintenance of the tools.

HOW WE START

Milestone by milestone

I

Assessment call

15 minutes on WhatsApp, free. We listen and tell you honestly whether we can help.

2

Strategic audit

Paid. We review costs, menu, team and processes, and close a priced proposal.

3

Phased plan

Each phase is a milestone, with its deliverable and its date.

4

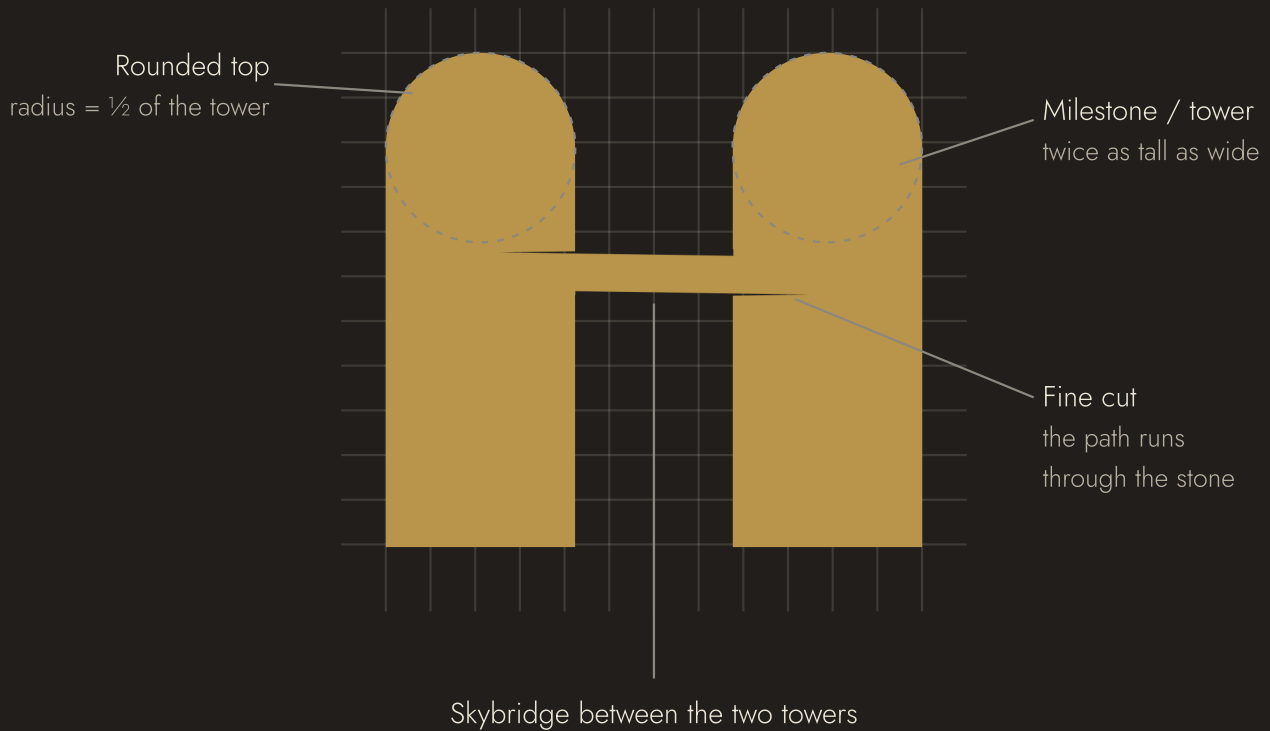

Results in numbers

Food cost before and after, and yearly savings in RM. Every case with its video testimonial.

We work with restaurants above a minimum monthly revenue. The figure is still to be agreed with Basilio.

THE SYMBOL

Two stones and a path

Two milestones, two towers

Each column is a stone milestone with a rounded top. Together, they are the two towers of Kuala Lumpur.

The skybridge

It joins the two columns just above the middle, like the bridge between the Petronas Towers.

The cuts

Two fine cuts show the bridge passing through the stone: the path runs from one milestone to the next.

LOGO

Versions and use

The full logo carries the symbol, the name, the Chinese name and the descriptor. The symbol alone is used only where space is small.

Primary. On warm black. This is the reference version.

On light backgrounds. For paper, restaurant menus and documents.

Symbol. App icon, browser tab, stamps and embroidery.

The scallop O

Eleven fine rays rise inside the O, like the ridges of the scallop shell of the Way or a rising sun. It is a detail to be seen up close: at small sizes it disappears, which is why only the symbol is used there.

O

Clear space

Keep at least the height of the O in HITO free around the logo.

35 mm

Minimum size

Full logo: 35 mm or 120 px wide. Below that, the symbol alone, down to 8 mm or 24 px.

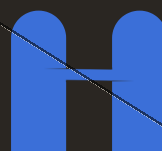

2

Two colours

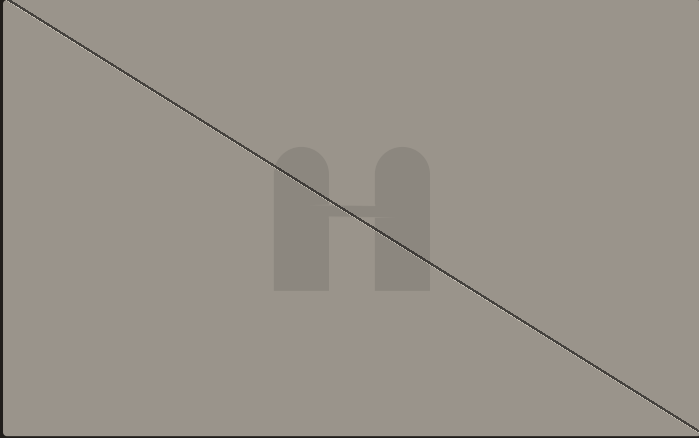

The logo uses only gold and ivory (or warm black on light). Never other colours.

Don't stretch or distort it.

Don't change the colours.

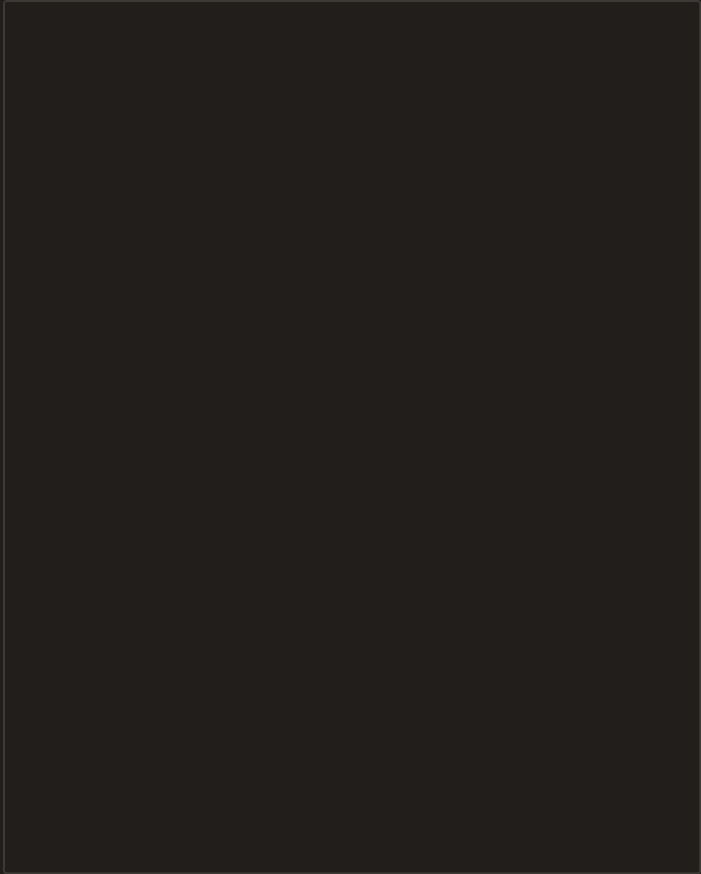

Don't use it on low-contrast backgrounds.

COLOUR

Stone, paper and gold

A short, warm palette. Gold is the accent: it shines because it appears rarely.

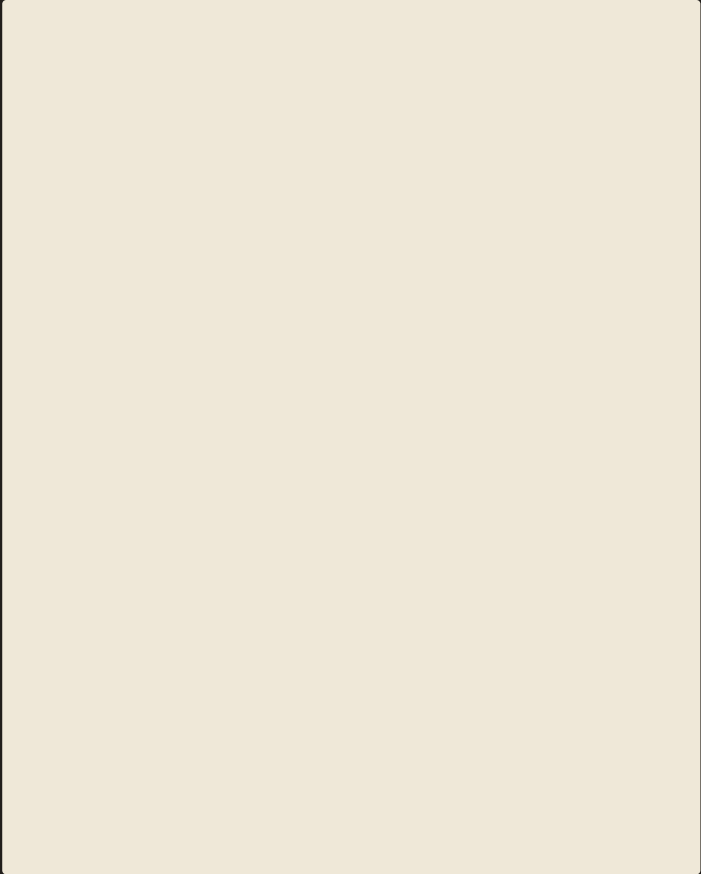

Warm black

Brand background.

HEX #211E1B
RGB 33 · 30 · 27
CMYK 0 · 9 · 18 · 87

COPY HEX

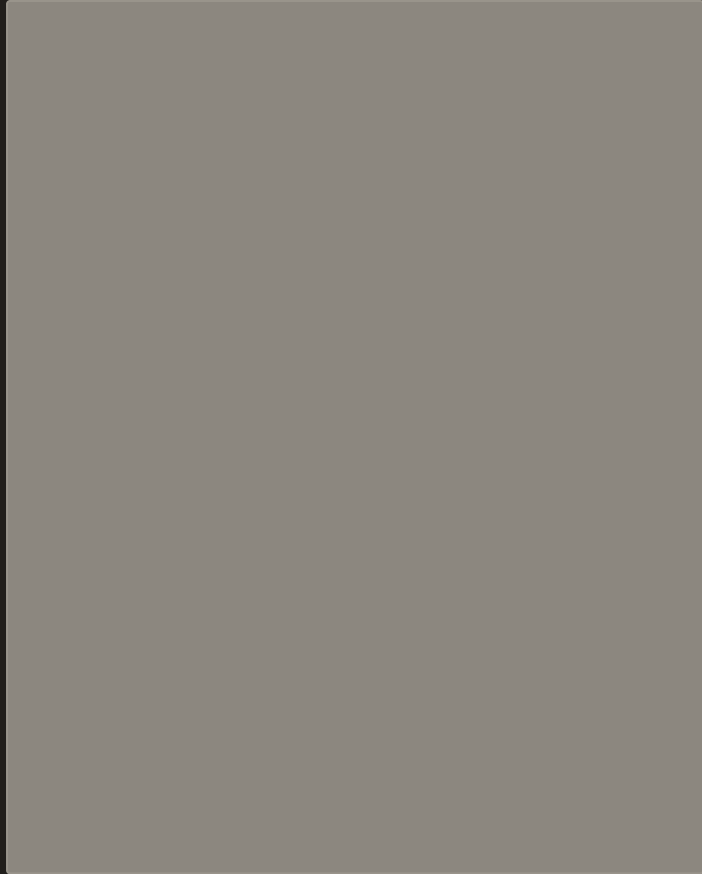

Ivory

Text on dark, and paper.

喜途

Noto Serif SC

Medium · the Chinese name. A Song style, the Chinese counterpart of a classic serif, to sit well beside Cormorant.

喜途

THE CHINESE NAME

xǐ tú, a joyful journey

喜 joy, happiness

途 road, journey

Many restaurant owners in Kuala Lumpur are Chinese-Malaysian. The Chinese name carries the same idea as HITO: a journey with a good ending.

To be validated with a native speaker

PHOTOGRAPHY

Real kitchens, in golden light

HITO photos are cinematic and warm: deep blacks, golden light and people really at work. Kuala Lumpur appears whenever it can, in the window or in the background.

O1

Warm light, dark ground

Lamps, fire and candles. Never white office light.

O2

Hands, fire and produce

The kitchen at work, no posing and no catalogue smiles.

O3

Kuala Lumpur in the frame

The city in the window or in the background, whenever possible.

APPLICATIONS

The brand day to day

Basilio

PARTNER · EXECUTIVE CHEF
